

Geometry Vocabulary Toolkit

Unit 1

Each term must include the Terminology, a Definition/Explanation, and a Drawing/Example. Vocabulary will be collected and graded at the conclusion of each unit. YOU are responsible for completing the toolkit. You may use your class notes, your textbook, or the Internet as a reference.

Unit 1: Part 1

| Term (with symbol) | Define/Explain | Drawing/Example |
|--------------------|----------------|-----------------|
| Point | | |
| Line | | |
| Plane | | |
| Segment | | |
| Collinear | | |
| Coplanar | | |

| Term (with symbol) | Define/Explain | Drawing/Example |
|--------------------|----------------|-----------------|
| Equidistant | | |
| Ray | | |
| Intersection | | |
| Length | | |
| Opposite Ray | | |
| Congruent | | |
| Angle | | |
| Side | | |

| Term (with symbol) | Define/Explain | Drawing/Example |
|--------------------|----------------|-----------------|
| Vertex | | |
| Acute Angle | | |
| Obtuse Angle | | |
| Right Angle | | |
| Straight Angle | | |
| Midpoint | | |
| Bisect/Bisector | | |
| Vertical Angles | | |

| Term (with symbol) | Define/Explain | Drawing/Example |
|----------------------|----------------|-----------------|
| Adjacent Angles | | |
| Complementary Angles | | |
| Supplementary Angles | | |

| | | |
|----------|-----------|--------------|
| 25 Terms | Comments: | Total Score: |
